ROYAL RING

AB Carter Inc. has the pleasure of introducing a NEW ERA of chrome plated rings, Royal Rings. With our team of engineers and specialized technicians, AB Carter developed Royal Rings with the following characteristics:

- High level of quality coating consistency
- Most advanced chrome plating technology
- Minimal standard deviation among rings
- Unmatched surface finish consistency
- Optimum Coating adhesion

Benefits

- Longer ring life in comparison to other chrome rings
- Traveler break-in cycles are reduced for most applications
- Increase in traveler's performance even in the most demanding environment
- Consistent yarn quality throughout the life of the ring
- Reduces yarn hairiness
- Appropriate for any type of raw material

Performance
